### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Keith Barkaus on May 20, 2009.

The application has been amended as follows:

Cancelled claims 97-106

### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: The claims are allowable over the prior art of record because the teachings of the references taken as a whole do not teach or render obvious the combination set forth, including that of a lockable container for securing an asset therein that includes a first cover, a second cover coupled to the first cover, wherein the first and second covers are configured to move between an open position which allows access to the asset, and a closed position which encloses the asset, a locking mate arrangement operatively coupled to at least one of the first and second covers and a locking member, wherein the locking member is configured to move between an unlocked position in which the first and second covers can move to the open position and a locked position which locks the first and second covers in the closed position, and specifically, the entirety of the locking member is internal to the container in the unlocked position and in the unlocked position

such that the locking member is inaccessible from an exterior of the lockable container to a physical contact sufficient to slide the locking member between the locked and unlocked positions, whereby the locking member and the lockable container are operable to restrict tampering with the locking member from the exterior of the lockable container.

The closest prior art of record, U.S. Patent Number 5,760,689 to Holmgren, discloses a lockable container (figure 1) for securing an asset therein, comprising a first cover (11), a second cover (10) coupled to the first cover, wherein the first and second covers are configured to move between an open position which allows access to the asset, and a closed position which encloses the asset, a locking mate arrangement (portion of element 10 that contains apertures 33) operatively coupled to at least one of the first and second covers, and a locking member (13 and 15), wherein the locking member is configured to move between an unlocked position (figures 8-9) in which the first and second covers can move to the open position and a locked position (figures 10-11) which locks the first and second covers in the closed position, and wherein the entirety of the locking member is internal to the container in the unlocked position such that the locking member is operable to restrict tampering from an exterior of the lockable container (the locking member is internal to the lid of lockable container, where the housing formed by elements 11 and 14 defend against tampering of the locking member from the exterior of the locking container) and the locking member is permanently connected to the lockable container (figures 8-11). However, the locking member is inaccessible from an exterior of the lockable container to a physical contact sufficient to slide the locking member between the locked and unlocked positions, whereby the locking member and the lockable container are operable to restrict tampering with the locking member from the exterior of the lockable container.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to CHRISTOPHER BOSWELL whose telephone number is (571)272-7054. The examiner can normally be reached on 9:00 - 4:00 M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Peter Cuomo can be reached on (571) 272-6856. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
